ADMIN RECORD

REVISION TO DATA AGGREGATION MEETING MINUTES FOR OPERABLE UNIT 6 HELD
JUNE 30, 1994 - NAH-006-94

Action None required

The meeting minutes transmitted by (07655) dated July 15, 1994, inaccurately reflected the opinion of the Colorado Department of Health (CDH) on the disposition of Individual Hazardous Substance Site (IHSS) 143, the Old Outfall. The minutes state that IHSS 143 will be left in the Remedial Investigation (RI) Report, but risk assessment will not be performed except for the CDH conservative screen. The actual response to this issue by CDH was that this IHSS should remain in Operable Unit 6 until a decision can be made whether remediation will be necessary or not. Only if the OU6 risk assessment determines that remediation is necessary, then a transfer to Operable Unit 8 may occur.

Sorry for any confusion this may have caused If you have any questions please call me at extension 6987
